

BASEMENT WATERPROOFING SPECIALISTS

*“We Treat You Like Family”
How We Can Help Keep Your Basement
and Foundation Safe?*

Who We Are

Collegeville-based Basement Waterproofing Specialists is a true family business. A fourth generation American contractor, their office employees work together in an environment reminiscent of a large family home. The company's success, from the beginning, is owed to their simple philosophy, to treat every customer as they would a family member according to General Manager Ken Klinger.

Serving all of NJ, DE, and Eastern Pennsylvania, the company is headquartered in a refurbished 150-year old stone farmhouse with a spacious fenced back yard where the Klinger's beloved Japanese Mastiffs, Clarissa and Clyde, can frolic while they work during the day.

We Treat You Like Family

“We are so grateful to our neighbors for referring as many customers as they do,” Klinger said. Our goal is to treat all of our customers and employees like family. It has helped us win many awards and satisfied customers throughout the region.

Steve Johnson,
Customer Service Manager

What We Can Do For You

We can help you with foundation & structural repair, basement waterproofing, mold and mildew inspection and remediation, and much more. While most waterproofer specialize in just one form of waterproofing, “We have 13 different levels of waterproofing systems, which are customized for your particular job.”

The water management systems and foundation repairs can be installed both inside and outside your home, while most contractors only do the inside.
