Levan Machine and Truck Equipment Holds Ribbon Cutting to Celebrate Opening of New Production Facility

As Levan Machine and Truck Equipment outgrew their shop on Pricetown Road in Fleetwood, President Brian Levan began making plans for their brand-new production facility. A ribbon cutting ceremony was held today at the new facility located at 3404 Pricetown Road to signify completion of the project so vital to Levan's continued growth.

Along with design build contractor, DESCCO Design & Construction, and other integral companies to the project like Watkins Architect, BB&T Bank, Greater Reading Chamber of Commerce and Pennsylvania Industrial Development Authority (PIDA), Levan cut the ribbon officially opening his new production facility.

Brian Levan, president of Levan Machine and Truck Equipment, has continued to grow the business his grandfather started in 1936 and is proud to have built his second location at the very site where his grandfather started it all. The new facility is 8,000 square feet with 6 truck bays which will allow Levan to increase the amount of van and truck up-fitting they are able to do and to provide quicker turn-around times.

About Levan Machine & Truck Equipment: Since 1936, Levan Machine &

Truck Equipment has been serving the truck equipment needs of the greater Reading Pennsylvania area as a full-service machine shop and custom fabricator. We specialize in all types of truck body installs as well as van upfits.
