

MICHAEL'S CLASSIC LIMOUSINE

Michael's Classic Limousine has been fortunate to have seen some steady growth over the past few years. Much has been due to repeat customers and referrals, but much can also be credited to the acquisition of several companies — the most recent of which was Wanish Limousine of Pottstown in April, 2016.

According to owner Christopher Haines, "We had done some work with the Wanish group over the years, and having been in business since 1984, they had a very good reputation and client base. When it came time for them to retire, they approached us and it worked out to be a great opportunity for everybody involved."

"We already had a strong presence in Berks, Schuylkill and Lancaster Counties, but this really helped us grow in Montgomery and Chester Counties," Haines said.

Michael's has a diverse fleet of vehicles including luxury sedans, SUVs, passenger vans, stretch limousines, stretch SUV limousines and limo busses, and provides transportation to airports, piers, sporting events, concerts, weddings, proms, medical appointments and special occasions. In addition to serving retail customers, Michael's also serves corporate customers of all sizes.

Part of their success has been due to the quality of the chauffeurs who drive their vehicles. Each candidate must have an excellent driving record and be approved by the insurance company. Further, a criminal background check is done on each applicant along with a drug test and a physical exam.

The company is a multi-year recipient of Berks County Living's People Choice Award and is headquartered on Route 61 in Leesport, Berks County.
