

ADVANCED SAFETY & INDUSTRIAL HYGIENE, LLC

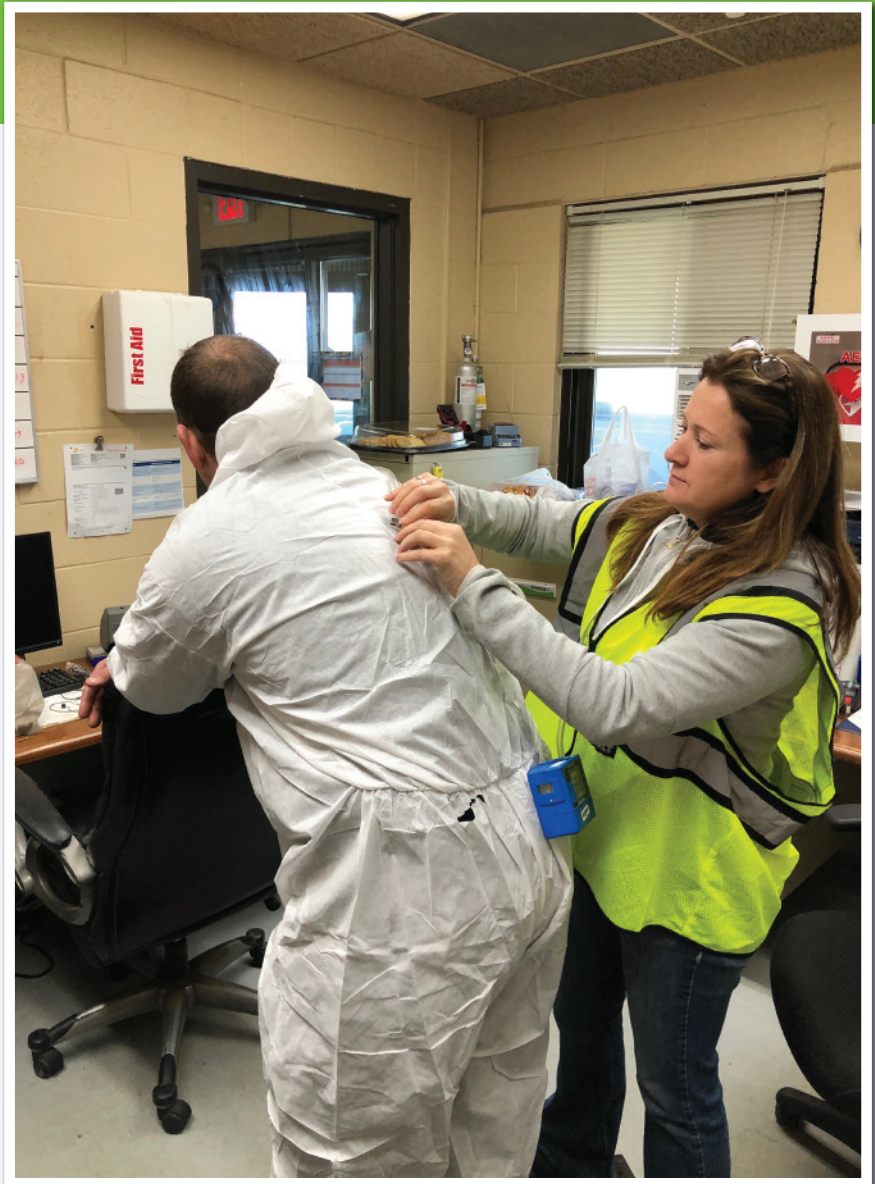

Advanced Safety & Industrial Hygiene was founded in Royersford, PA in 2009 by Nicole Sheets. Ms. Sheets is a Certified Industrial Hygienist and Certified Safety Professional, with twenty-three years of experience as a consultant in the fields of OSHA compliance, industrial hygiene, and safety consulting. Although we are local, we provide services across the US and have the capability to provide service internationally.

Advanced Safety & Industrial Hygiene, LLC (ASIH) provides OSHA, DOT and EPA compliance consulting services to manufacturing and construction industries, as well as energy, utility, and pharmaceutical industries. Our services are focused on supporting your business to achieve regulatory compliance. We provide everything from Compliance Gap Audits to assess your business' current state of compliance and needs, to more specific areas of compliance including OSHA required safety training, written safety policies, and air and noise testing (industrial hygiene) for occupational exposure studies.

Examples of some topics we commonly address include: Chemical Safety; Fire Safety; Forklift Operator; Lockout Tagout; Hazwoper Spill and Remediation Site Worker; PPE; BBP; and recently, Pandemic Preparedness, just to name a few. Our topics also include DOT, IATA (Air Shipper), and IMDG (Water Shipper) required training for companies shipping hazardous materials or waste. EPA required RCRA training for handling hazardous waste in addition to EPA SPCC training are available as well. We also provide FA/CPR/AED training!

Attaching air monitoring equipment to employee

Forklift Operator License Evaluation

Please see our website (www.advanced-safetyih.com) to see the full list of topics we address. If you don't see what you need, please inquire.

We firmly believe that safety doesn't have to be dull or stuffy! Our clients often comment that they are happily surprised by how much they enjoy our safety training programs. They also appreciate the stress reduction they experience when they realize we can easily develop a clear plan for addressing safety and compliance in their workplace.

Studies have proven that companies save \$4-\$6 for every \$1 invested in safety. In the state of PA, your business will receive 5 percent back on your Workman's Compensation Insurance premiums by maintaining a certified safety committee! Even our small business clients reap significant savings.

We take pride in providing safety services that will help protect your people as well as your business. Our goal is to provide professional, personalized service that is as straightforward and stress-free as possible.

Please see our website for a complete listing of Safety Services and Training Topics, or reach out to us and mention this article, and we will provide you with a free 20-minute phone assessment of your businesses' compliance needs. We will provide straightforward advice based on your specific business operations. Ask us, and we will be happy to provide testimonials from our clients.
