

## BUSINESS PROFILE

# Nuage Logic

At Nuage Logic we focus on Cloud Hosting and Managed IT Services. We become your virtual datacenter. We can host your servers, applications, and desktops, the core of your business technology, in our cloud. We can either become your entire IT department, or an extension of it with the experience and knowledge needed to keep things running efficiently.

The great thing about cloud is that you pay for what you need, when you need it. There's no more worrying about purchasing hardware in order to scale or the downtime it takes to expand. We can easily adjust CPU, RAM, or storage to meet the need of an application, demand of users, or growth of your business.

Technology is what matters to

us most. Unlike most other IT providers, we're not interested in upselling a service. The overall goal is making sure your business runs without issues, securely and efficiently. This is why we offer service packages custom designed to your needs and scaled to your budget.

We have decades of experience working for large enterprise companies as consultants, contractors, or even prior full-time employees. We understand the business process, the importance of change management, and what combination of technology can work for you. We stay up-to-date in the latest trends so you don't have to.

For additional information, please call Leonard Astick at 484.558.0038 (office) or 570.809.5869 (mobile) and visit [www.nuagelogic.com](http://www.nuagelogic.com).

We can tell you everything you need to know about our senior living community, but we'll let our residents do that for us...

"Every time I call my grandmother lately all she talks about are the activities she's doing. THANK YOU for getting her through this time with more JOY than I've heard in years. You are so essential to her wellbeing, I can't thank you enough! Your work means so much to me and my family."

– Diana
