

CELEBRATING NATIONAL ENVIRONMENTAL SERVICES WEEK

SEPTEMBER 10-16, 2023

Synergy Environmental Inc.

Synergy Environmental, Inc. takes pride in the quality of its professional staff of engineers, technicians, and scientists. Our staff is professional, friendly, and very good at communicating with clients. Synergy is a full-service environmental consulting firm founded in 1998. Synergy's offices are located in: Royersford, PA; Cherry Hill, NJ; and Reading PA. Synergy's personnel have extensive experience working within the regulatory requirements various state and federal programs including USEPA, PADEP, NJDEP and NYSDEC programs.

When it comes to environmental engineering services Synergy is a local company with a very large footprint. Current project locations range amongst the following states: Delaware, Florida, Georgia, Kentucky, Maine, Massachusetts, New York, New Jersey, Ohio, and Pennsylvania. For these projects Synergy maintains a staff of Environmental Scientists, Licensed Professional Geologists; Licensed Professional Engineers; Licensed

Site Remedial Professionals; field technicians and field scientists.

Synergy has built its company from repeat and referral business. This is the result of our: 1) **Emphasis on problem solving and client advocacy**; 2) **Cost competitiveness**; 3) **Ability to respond to the specific needs of our clients**, where solutions must be developed which are compatible with ongoing operations and priorities; and 4) **Knowledgeable professionals** able to conduct regulatory negotiations with a strong understanding of the applicability and interpretation of those regulations.

Our primary service areas and expertise include:

- Environmental due diligence investigations.
- Soil and groundwater investigations.
- Remedial investigations/feasibility studies and remedial action plan development.
- Groundwater remediation system design, construction and operation/maintenance.
- Regulatory permitting and compliance
- Real estate transaction assessments.

- Environmental construction management and landfill closures.
- Litigation support (civil and criminal).
- Brownfields investigations and remediation planning.
- Public supply well locating, testing, and permitting.
- Underground storage tank (UST) inspections, closures, and investigations.
- Environmental project portfolio management.

Synergy's corporate headquarters and main warehouse are located in Royersford, Pennsylvania. Our warehouse contains a

vast array of groundwater and soil sampling equipment, as well as environmental remediation system components. All remediation systems designed by Synergy are constructed at our Royersford location.

Synergy Environmental, Inc. is located at 155 Railroad Plaza, 1st Floor, Royersford, PA 19468. If you need support for your next project, please contact Brian Loughnane at 484.369.2005, by email bloughna@synergyenvinc.com, or visit our webpage www.synergyenvinc.com.

CELEBRATING NATIONAL ENVIRONMENTAL SERVICES WEEK

SEPTEMBER 10-16, 2023

Carroll Engineering Corp. Celebrates 50 Years of Service

Carroll Engineering is pleased to announce its commemoration of five decades of dedicated service in the year 2023. We extend our profound gratitude to our esteemed clientele and dedicated workforce, whose unwavering support and contributions have been instrumental in achieving this significant milestone.

Carroll Engineering owes its enduring success over the past half-century to its steadfast commitment to fostering enduring relationships with clients and nurturing the professional growth of its employees.

Since its inception in 1973, Carroll Engineering Corporation (CEC) has steadfastly delivered exemplary engineering and surveying services to clients spanning the regions of Pennsylvania, New Jersey, and select parts of Delaware. Our reputation as a preeminent provider of specialized professional services has earned us recognition among a diverse spectrum of clients, including counties,

municipalities, school districts, as well as public and private entities.

CEC's organizational framework encompasses a workforce of approximately 90 dedicated professionals, distributed across nine interconnected departments. Notably, five of these departments are dedicated to distinct engineering disciplines, namely: Municipal; Water/Wastewater; Planning & Site Design; Structural; and Traffic & Transportation Services. The remaining four departments encompass Surveying, Construction Administration & Observation, Geographic Information System (GIS)/Computer Aided Drafting & Design (CADD), and Administrative functions, all integral in supporting and enhancing our comprehensive suite of engineering services.

In tandem with our steadfast commitment to excellence, CEC has embraced cutting-edge technological advancements to augment our service offerings. Through

the incorporation of state-of-the-art capabilities such as Drone/UAV and 3-D Laser Scanning Services, we ensure an unparalleled level of data precision and accuracy for the benefit of our esteemed clientele. Our departments synergistically collaborate, thereby bolstering our capabilities and fostering the cultivation of enduring, mutually beneficial relationships.

Strategically headquartered in Warrington, Bucks County, CEC also maintains operational offices in Malvern, Chester County, King of Prussia, Montgomery County, Easton, Northampton County and Hillsborough, Somerset County, New Jersey. Our Easton, PA office is a newly opened office, and we are excited to serve our clients in Northampton County and surrounding areas from that office. To gain comprehen-

sive insights into our reputable establishment and the distinguished services we offer, we invite you to explore our official website at www.carrollengineering.com. Furthermore, we invite you to engage with us on various social media platforms, including LinkedIn, Facebook, Twitter and YouTube.

Should your forthcoming projects necessitate adept engineering or surveying support, or should inquiries regarding CEC arise, we encourage you to reach out to Joel Ardman, Vice President, directly at jardman@carrollengineering.com or via phone at 215.343.5700 ext 243.

Alternatively, Rachel Skidmore, Business Development Specialist, is readily available for direct correspondence at rskidmore@carrollengineering.com or by phone at 215.343.5700 x225.

All County & Associates

Since 1992, All County and Associates, Inc. (ACA) has grown from a three-person firm, formed by All County Investments, Inc. (ACI). Located in Chester County, the firm offers a full range of civil engineering services, throughout eastern Pennsylvania. These services include: **Construction Management; Civil Engineering; Environmental Permitting; Septic System Testing and Design; Land Surveying; Wetland Delineations and Mitigation.**

All County and Associates, Inc. is the first choice of the construction and real estate community. Having worked on thousands of projects, ACA sets itself apart by developing and maintaining long-term relationships. These relationships are represented through a dedicated referral network of satisfied customers. Our team is a trusted source for our rapid and thorough responses, and our ability to handle a project big or small. We never deviate from our primary focus of helping them

make informed decisions. It is our goal to have our clients educated and familiar with the processes. This allows for the best communication and understanding of ALL parties involved.

If you have an upcoming project and would like a proposal for our services, please call 610.469.3830 and visit www.all-county-assoc.com.

QUALITY * COMMITMENT * PERFORMANCE

Ludgate Engineering Engineering for Land Development

Ludgate Engineering has provided civil engineering for land development since the company was founded by Bob Ludgate Sr. in 1976. Although rules and regulations have changed, the planning process still deals with the several impacts imposed by almost all development plans. While the site civil engineer provides plans to identify and offset or mitigate impacts, the Engineer must do so in a way that does not impede the essential functions the site shall provide, nor shall the plan compromise the Architect's vision of the development. Each site plan deals with the impacts of traffic management and parking layout. Managing stormwater for drainage and flood prevention often governs the design. Bringing sewer, water, and other utilities to the site can present difficult problems for the Engineer to solve.

Ludgate Engineering Corporation is headquartered at 10 Vanguard Drive, Suite 90, Reading, PA 19606; 610.404.7330.

Earth Engineering Incorporated (EEI)

Earth Engineering Incorporated (EEI) takes great pride in being a high-quality full service geotechnical and environmental engineering consulting firm composed of a group of proven engineers, geologists, and scientists. With offices located in East Norriton, Lehigh Valley and Mechanicsburg, Pennsylvania as well as South Jersey, EEI is well positioned to service the entire 422 corridor and surrounding areas. We at EEI are dedicated to providing swift, professional services needed to meet the demands of today's development projects.

EEI has specific expertise in Geotechnical Consulting, Subsurface Investigations, Construction Inspections & Testing, Infiltration Testing, Geo-Structural Design, Environmental Site Assessments, and Clean Fill Analysis. The cost-effectiveness of foundation alternatives and geotechnical data are evaluated along with site development issues to establish thorough, mindful recommendations. This approach has enabled EEI to contribute to the successful development of many various types of projects by adding true value to the planning process.

At EEI, our mission is to provide top quality geotechnical and environmental

consulting services with a focus on providing best in class services to our clients. We are driven by our core values of reliable, quality driven engineering; on-time, on-budget services with a focus on communication and our client's best interests; honesty, integrity and trustworthiness; and a commitment to building a better community.

Your success is our mission. The 422 region is alive and well and the profession-

als at EEI, many of which who reside along the corridor, are ready to support the progress throughout the area. We at EEI look forward to contributing to the success of your next project. For additional information, please call 610.277.0880 or visit our website www.earthengineering.com.
