A Markel Food Group Company

Reading Bakery Systems

Get to know Reading Bakery Systems. With global headquarters and primary manufacturing facilities in Robesonia, this unassuming neighbor of yours is known worldwide as the leading manufacturer of innovative bakery and snack equipment solutions.

RBS was originally founded as Reading Pretzel Machinery (RPM) by Edwin Groff in West Reading in 1947. Edwin and the RPM team designed, built, sold and serviced the first automated pretzel forming machines. Realizing the larger quantity need of snack makers, Groff designed an integrated baking system that could efficiently and effectively handle much larger volumes of snack product.

Edwin's son Terry joined the company in 1974. Together, the Groff's helped shape the future of the food manufacturing

industry while establishing the company as a global brand. Terry led a culture of integrity, creativity, and innovation that developed numerous inventions like the first stainless steel-lined ovens and a twisting die for braided pretzels. That culture still exists today.

For more than a century, innovation has been in our DNA and our business has thrived because of our relentless pursuit of ways to improve the mixing and

baking systems that make our customers successful.

RBS is more than just a leading snack food equipment manufacturer. We are a business that builds strong and lasting relationships with employees, communities, and customers alike. Partnership, collaboration, empowerment, and shared success make Reading Bakery Systems not only a great place to work, but a great place to build a career.

If you are looking for a new challenge, a better work environment or want to be part of a culture built on performance, then RBS is for you. Connect with us to learn more about our compensation and benefits, growth opportunities as well as positive, and fun workplace environment. Come and join the growing Reading Bakery Systems Family.
