

WINDOWS

The Eyes of Your Home

A contemporary townhouse, modern farmhouse or stately Tudor all have windows to dress. With a myriad of window treatments available, there's a style to fit every window and every personality.

Full drapery treatments tend to lend a quiet note of formality to the windows they dress. There are hundreds of design options and styles to select – from stationary or traversing treatments – French, goblet, smocked or box pleated – your choices are virtually limitless! In making smart choices for your windows, keep in mind that a truly creatively designed window treatment is not only a beautiful addition to your room, but also a sound investment.

Did you know you can actually lower your fuel bills by installing appropriate window treatments? The more layers at a window, the more your energy efficiency improves. Draperies add polish to any room and also provide excellent insulation from summer heat and the chilling drafts of winter. Sunshine pouring in through your windows brightens a room and creates a cheery atmosphere. Unfortunately, it can also do irreparable damage to your furniture, carpet and upholstery. A proper lining can be the answer you're looking for.

At Decorating Den Interiors, we offer a wide variety of decorative soft window treatments from draperies, side panels, roman shades and top treatments. We will come to your home or office and assist you in choosing from an extensive selection of drapery styles and an almost limitless collection of fabrics. The custom options coupled with the highest quality of fabrication make the perfect drapery for any window.

We are also able to help with difficult shaped windows, such as bay windows. Bay windows offer the perfect placement for a small seating area or reading nook while taking advantage of the views outside your

home. However, due to their shape, bay windows can sometimes pose problems. Decorating Den Interiors is able to design custom bay window treatments that match the style of your windows and your home.

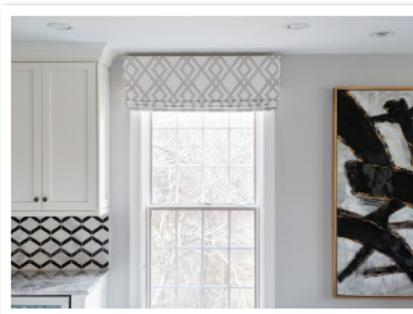

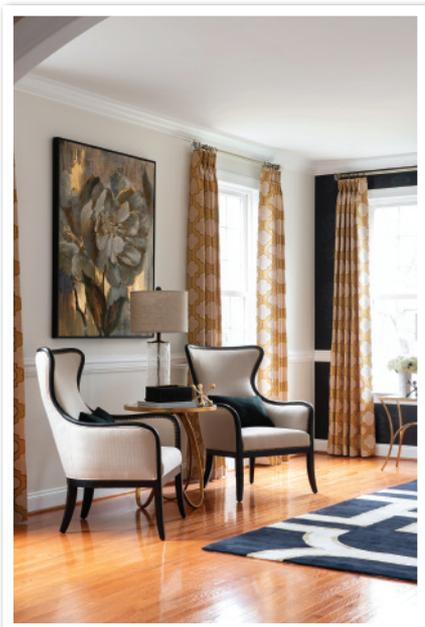

The possibilities are endless and we are here to help you every step of the way. Our design consultation is complimentary. Once we have selected the right treatment for you, we take all the measurements, place the orders and our talented fabricators will get to work to ensure that the designs are built to your specifications. We will then deliver and install the products to your satisfaction.

Contact Decorating Den Interiors – Barbara Hayman Designs today at 484.624.4787 email: barbaramcinnis@hotmail.com to schedule your complimentary in-home consultation to discuss your window treatment needs.
