

# BUSINESS SPOTLIGHT

## 60<sup>TH</sup> ANNIVERSARY BLANSKI ENERGY MANAGEMENT

The Blanski family has been in the mechanical contracting business since 1962. 2022 marks the 60th year that the Blanski family has served Eastern Pennsylvania and will continue to do so in the future. The company was started by Milton Blanski and Stanley Phillips as Blanski & Phillips Mechanical, Inc.

Over the years, the company has specialized in many areas, including plumbing, industrial piping, heating, air conditioning, ductwork fabrication, HVAC service and portable boiler rentals.

The key to the family's business success has always been their commitment to providing quality service and products.

In 1986, Blanski Energy Management, Inc was formed to provide quality service for HVAC equipment and systems the company has installed. As time passed, Milton Blanski retired and handed down the company to James (Jim) Blanski, the second generation. At that point in time, Blanski Energy Management, Inc. transitioned to more of a sheet metal fabrication and installation firm and continued to service many types of HVAC systems.

Jim & Nate Blanski standing with portrait of Milton & Ann Blanski

Blanski Energy Management has completed numerous sheet metal projects in, and around the Philadelphia area since focusing on sheet metal work. Blanski worked on the Please Touch Museum, Samuel Fels High School, the Jewish National History Museum, two Swarthmore College Dormitories, Girard Music Academy, the Temple Baptist Renovation, the Temple-McGonigle Renovation, and many more projects. Outside of Philadelphia, Blanski has completed projects at Graterford Prison's Boiler Plant and School, the Northampton Prison Renovation, Yuengling Plant #2, Coatesville 9-10 Center, Lincoln University Science and Cultural Center, three Connective Power Plant projects, the Reproductive Science Institute's Laboratory and Operating Rooms, and WUXI clean rooms.

Recently, Jim Blanski, CFO, has semi-retired and Nathan (Nate) Blanski, the third generation, is now in control of operations as president, continuing the company's dedication to providing quality services and products. Blanski Energy Management has recently completed the following jobs: West Chester Science Building, Philaport Vehicle Staging Center, Belmont Behavioral Hospital, Bimbo Bakeries, Solomon Solis Cohen Elementary, and Valley Forge Visitor Center, among many others.

Presently Blanski Energy Management is working on the Salem County Courthouse, New Jersey American Water, Chatham Elementary School, 545 N. Broad Street Apartments, and the Philadelphia Federal Building 7th/8th floor renovation. Blanski is providing and installing all of the duct systems on these projects.

Through every generation of ownership, the company has continued to look out for its customers' best interests by providing education and training with their partner, the Sheet Metal Workers' Local Union No. 19, and by financially supporting their pension, health and welfare funds. In addition, they support local and national charities including, the Olivet Boys and Girls Club, the Reading Police, PA Professional Firefighters, Mary's Shelter, Wounded Warrior Project, and many others. Blanski Energy Management gives back to the communities in which it operates and hopes for a better future for all.

Blanski Energy Management is headquartered at 1835 Pear Street, Reading PA 19601.
